Vision & Legacy: Celebrating the Architecture of Haystack celebrates the 50th anniversary of Haystack's award-winning campus. Published in 2011 by Haystack—with Brynmorgen Press, Falmouth, Maine—the book includes essays, images, and historical content.

“For fifty years, this stunning architecture has fostered a community of creativity on the Maine coast. With simple materials and spare elegance, the design of architect Edward Larrabee Barnes has inspired scores of artists. No printed record can substitute for the experience that is Haystack, but, in homage and celebration, this book captures the spirit of the place.”

ISBN: 978-1-929565-43-6

Tim McCreight, Publisher, Brynmorgen Press

The Haystack Reader is an anthology of monographs #1-23 published by Haystack and the University of Maine Press in 2010. Discounts are available for large orders (10 or more).

“This compilation of monographs records an important annual program that began in 1991 at the Haystack Mountain School of Crafts. Inviting writers, designers, and artists to be in residency to reflect and record their thoughts has brought a fresh perspective to the meaning of crafts and its related associations. The composite of twenty-three publications documenting the unique project provides a valuable resource for future research for the craft field.”

Paul J. Smith, Director Emeritus, American Craft Museum (now Museum of Arts & Design)

440 pages, with 83 illustrations

ISBN: 978-0-89101-121-7
